

## Fuel Feed Transfer Pumps with Piston

Technical parameters				
Parameters	Measure	Size		
		A	P	ZW
Plunger diameter	mm	22	22.0; 24.0	22
Maximum pump speed	rpm	3000	3000	1500
Stroke of eccentricity	mm	4,8	4(2x)	12
Maximum absorption height	m	1	1	1
Pre-filter		Filter and not filter	Not filter	Not filter
Type		single-acting piston	double-acting piston	single-acting piston
Pump drive		By eccentric cam fitted on the cam shaft		
Pump mounting		Flange mounting for installing the pump on the injection equipment		
Execution		Gray cast iron housing
